

Zeta LED Road Sign

The Zeta LED Road Sign has been specifically designed for use in the challenging environment of street furniture and is available in all standard UK road sign faces.

Incorporating the innovative Zeta Light Guide Panel each road sign is illuminated using highest quality acrylic etched with a unique, optimum performance grid pattern. This ensures optimum light spread and shadow free illumination.

The patented Zeta LED Road Sign is equipped with an integral mains power supply, is easy to install and fits all pole sizes.

The LED Road Sign is also fitted with traffic grade retro reflective vinyl, designed to be highlighted by car head lights in the hours of darkness to further enhance visibility. The Road Sign can also be fitted with an anti dew film upon request.

Features:

- Back to back mounting available
- UK manufactured
- UMSUG codes available for L1 & L2 on request
- Traffic grade retro reflective vinyl
- Anti dew film available
- Remote power supply options
- Photocell options
- Ultra slim
- Aluminium composite - no scrap value
- Solar version available
- Energy, cost and carbon saving

Applications:

- Exterior
- Road Signage
