

Zeta LED Shelter Light

zeta
Specialist Lighting

The LED Shelter Light from Zeta is a versatile, lightweight LED solution, ideal for bus shelter illumination.

The Zeta LED Shelter Light has either mains or solar power configuration meaning it is suitable for any application including remote or rural areas. The unit is also ideal for using in conjunction with the Zeta Solar Shelter Lighting Kit to provide a complete solar shelter lighting solution.

Using the latest Chip On Board (COB) technology the blade arrays offer highly efficient lumen levels and high power factor, providing an ideal, long-life LED solution.

The tough and robust prismatic polycarbonate diffuser is available in both domed or flat options and is waterproof as well as vandal resistant.

Features:

- Eliminates point source glare
- Efficient lumen levels
- Versatile solution
- Lightweight
- Energy and cost saving
- Carbon saving

Applications:

Exterior and Interior:

- Shelter lighting
- Remote areas (solar)

Also suitable for:

- Commercial areas
- Warehouses
- Office spaces

Specifications
